Subject: [MLPA Comments] Pacific Grove Marine Garden Fish Refuge

CA Fish & Game Commissioners:

I write as a native born northern California resident (now a bona fide senior citizen) to support maintaining the integrity of the Pacific Grove Marine Garden Fish Refuge as a single, 3-mile State Marine Reserve entity. PGMGFR is a precious, natural ocean resource and should remain so.

Pacific Grove residents & ocean resource advocates have maintained PGMGFR and committed themselves to protect & nurture the site for the indefinite future. Please support their efforts rather than compromise an invaluable coastal resource for temporal economic pursuits. It's a case of "if it's not broke, don't fix."

Sincerely,
(Mrs. Fred) Betty Furuta

Richmond, CA 94806
